

ABRASION RESISTANT

FILM COAT FORMULATION FOR CORN

NEW

DISCO[®] AG RED L-450

Incotec has developed a new red film coat formulation for Europe and Brazil that outperforms currently available products on:

- Abrasion resistance
 - Dust control
 - Vibrant red colour
- Easily cleaned off machinery
 - Hiding power

incotec

the seed enhancement company

Part of Croda International Plc

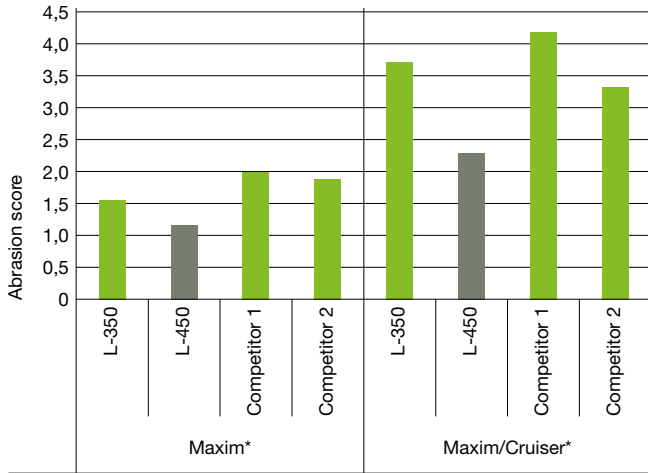

DISCO® AG RED L-450

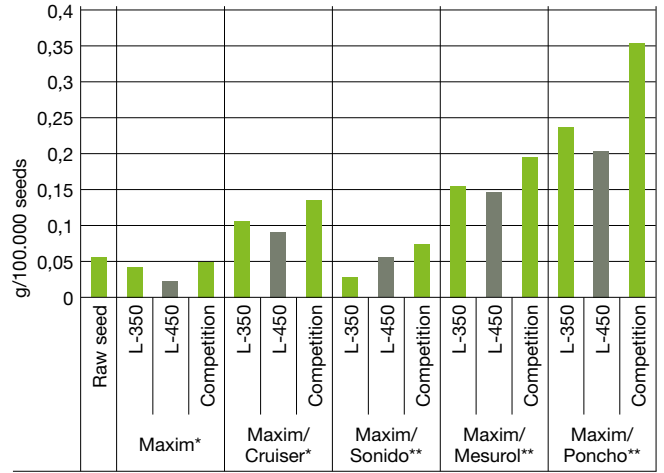

Abrasion resistance and dust-off results for L-450 were compared with competitor products and Incotec's L-350. This shows conclusively that L-450 outperforms all products tested.

Abrasion tests show that the L-450 coating is minimally affected by machinal stress, compared to other products.

Abrasion

Heubach dust-off
